DECISION

Claimant #8010 died on July 16, 1992. Her sister-in-law brought this claim under the 1986-1990 Hepatitis C Class Action Settlement, Transfused Plan, on behalf of Claimant #8010's estate. The claim was denied because the family physician was of the opinion that the deceased was infected with Hepatitis C before January 1, 1986. Dr. Ciurria had treated the deceased between 1977 and 1992. The patient had Cirrhosis of the liver prior to transfusion.

The class period is January 1, 1986 to July 1, 1990.

No contrary medical evidence was presented on this appeal. I must, therefore, reluctantly dismiss the appeal.

Dated at Toronto, this 18 day of January, 2006.

The Hon. Robert S. Montgomery, Q.C.
Arbitrator
