John Callaghan

Fund Counsel representing the Administrator

DECISION

Claimant No.1400456 claimed compensation for her husband's death which occurred prior to January 1, 1999.

The claimant was unable to prove that her husband's death was caused as a result of Hepatitis C. The treating position found that his death was unrelated to Hepatitis C. The claim must, therefore, fail under section 3.05(1)(a) of the HCV Transfused Plan.

Dated this 26th day of November 2005.
