

**IN THE MATTER OF HEPATITIS C – CLASS ACTION SETTLEMENT 1986-1990**

**CLAIM FILE NO. 18139**

**REFEREE**

**Gerald J. Charney, Q.C.**

**The hearing in this matter took place on August 24, 2011 at Toronto, Ontario.**

## DECISION

This matter was first heard on August 24, 2011 and due to a lack of records was adjourned.

I have received all the necessary records as a result of a summons that I issued on August 29, 2011. The records do not indicate any blood transfusions on the relevant dates.

There has been correspondence which I have been copied between the claimant and John Callaghan, counsel for the Fund and eventually Mr. Callaghan wrote to the claimant that if he did not respond by December 7, 2015 he would request that I render a decision dismissing this matter based on the record as it presently exists.

There is no evidence that I have that indicates that the claimant was transfused during the period January 1, 1986 to July 1, 1990 and accordingly there is no validity to his claim.

This claim is therefore dismissed.

DATED at Toronto, this 21st day of January, 2016.
